

Bunnings Warehouse in Nelson supports both local Abbeyfield houses

After developing the landscaping plan for Abbeyfield Mata Close and contributing advice, plants, discounted products and heaps of encouragement the Bunnings community team called again in May asking if Abbeyfield could use some help in the garden area. Our St Francis way housekeeper accepted the offer of plants and labour with open arms.

Once the rain stopped a small team from the local Bunnings store arrived on site with products, plants and equipment to give the vegetable and herb gardens a makeover. Abbeyfield is very appreciative that Bunnings are willing to do more than just give lip service to its commitment to be “part of the community”. Those red shirts are always welcome at Abbeyfield.
